

QUALITY POLICY

The long-term business success of OOS Energy depends on our ability to continually improve the quality of our services and to build a resilient organization.

OOS Energy developed its expertise since its establishment and its aim is to achieve a high standard of services to our Clients. It is the policy of OOS Energy to provide our Clients with services to the agreed scope of work.

OOS Energy requires the active commitment to, and support of QHSE from all employees. In addition, line management has a leadership role in the communication and implementation of, and ensuring compliance with QHSE policies, standards and procedures.

We will:

- Provide a framework for setting of quality goals and performance objectives, and the use of an effective management system in order to meet company, customer & regulatory requirements;
- Monitor, evaluate and continually improve the quality of our services through the definition of Key Performance Indicators, operational standards, training, assessment and audits;
- Be committed to the proactive integration of quality objectives into our management system at all levels.

The Directors, Management and Staff are responsible for Quality Control through the Quality Management System seeking improvement by constant review, with clients, suppliers and sub-contractors being encouraged to co-operate. The Company is committed to achieving client satisfaction by the use of quality procedures which will be operated to meet or exceed the requirements of ISO 9001.

This policy shall be reviewed periodically, taking into account the developments in our industry, the views of clients, employees, and those who work with us.
